

# Industry Regulations

The City of Mt. Shasta allows for limited industry and retail operations in the City Limits. These operations are allowed in commercial and industrial zones throughout the City with restricted areas around schools, daycares, and youth centers.

## Cannabis Zoning

The Zoning regulations indicate where cannabis type uses can operate in the City Limits. The restricted areas map indicated where sensitive land uses exist with the state mandated 600 foot buffers. Buffers are measured from property line to property line.

**\*\*At this time, all of the retail licenses are taken. Please refer to this webpage for changes.**

Cannabis Retail License holders may register with the City of Mt. Shasta to delivery medical cannabis and medical cannabis products in City Limits.

## Industry Licenses

The City of Mt. Shasta has introduced cannabis industry licensing and standards. The types of industry regulated in this ordinance are cultivation, manufacturing, nursery, testing, distribution, and transportation.
