

Notice of Availability of an Initial Study and Intent to Adopt a Mitigated Negative Declaration State-Mandated Wastewater Treatment and Outfall Improvement Project

PROJECT DESCRIPTION AND

LOCATION: The City of Mt. Shasta is considering approval of a Mitigated Negative Declaration addressing the proposed improvements to the Mt. Shasta Wastewater Treatment Plant and Sacramento River outfall. These improvements are necessary to comply with Central Valley Regional Water Quality Control Board requirements for wastewater discharge. The proposed improvements would be located within the footprint of the existing facilities and would include a replacement treatment plant and a new diffuser at the river outfall. The project site is not identified as a hazardous waste facility, hazardous waste property, or hazardous waste disposal site. The ±10-acre project site is located at the southern terminus of Grant Road, southeast of the Mount Shasta Resort Golf Course, just south of the City of Mt. Shasta, Siskiyou County, California.

PURPOSE OF NOTICE: The purpose of this notice is to inform you that an Initial Study, describing the potential environmental impacts of the proposed project, has been prepared. The City of Mt. Shasta anticipates that the proposed project would not have any significant effects on the environment with implementation of mitigation measures.
