

Mt. Shasta Region Transformative Transportation Study

Informational Webinar

December 16, 2020 1:30 P.M. Pacific Time

Overview

- Project Objectives
- RFP Submittals
- Scoring
- Additional Information
- Questions

Mt. Shasta, California

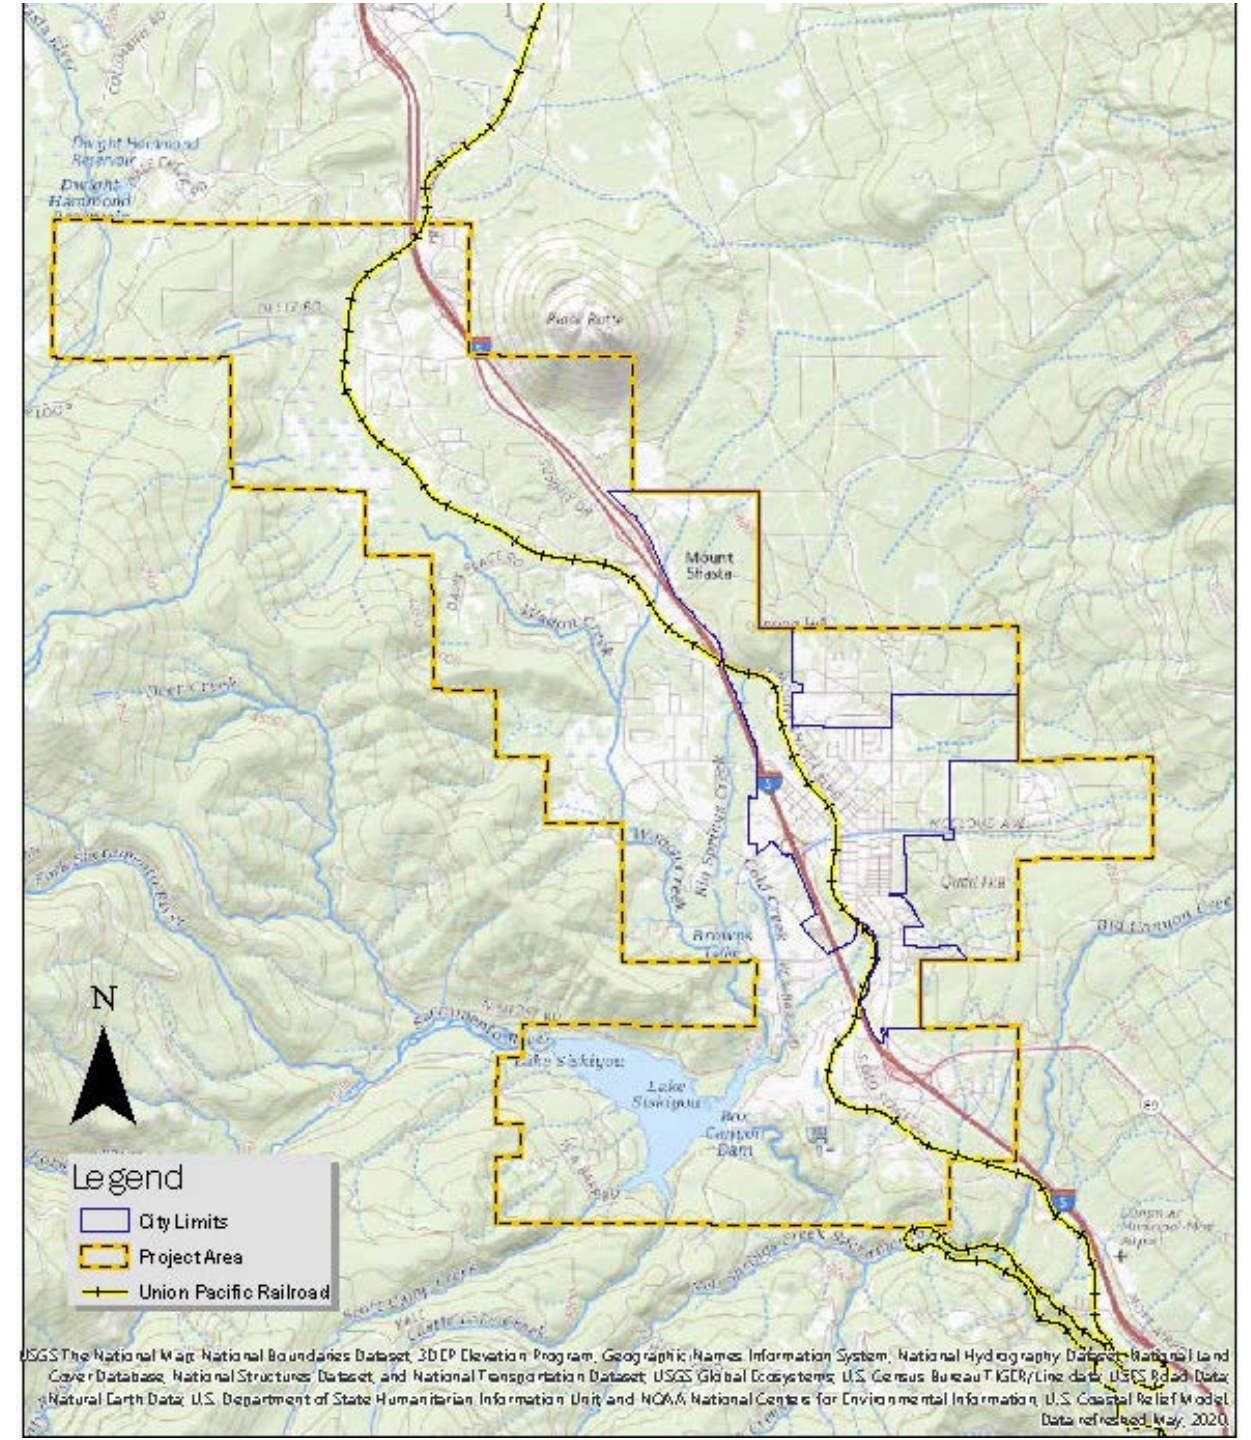

Mt. Shasta experiences heavy snow in winter months which influence road design.

Project Area

The Project Area is the City's Sphere of Influence which is the county area that could be annexed into City limits.

The City has the Union Pacific Railroad running through town. There are no industrial or passenger railroad stops within the City.

The City sits along the Interstate 5 corridor which runs north-south along the City. On the southern border of the City and within the project area is State Highway 89 which connects eastern California to Interstate 5.

Mt. Shasta Regional Transformative Transportation Study

Objectives:

- Benchmark VMT, GHG*, and existing conditions
- Recommend goals, policies, and street designs

Focus

- Non-vehicular
- Active Transportation
- Heavy Snowfall Environment

*GHG Study will be coordinated with TRC Solutions, Inc
